

Soundset Description:

Touch The Universe Productions presents "Zen Starfields", a huge collection of 128 high quality Spire and Respire presets. The soundset fuses some of the best sounds trending in many different contemporary electronic dance music and ambient genres, in addition to providing truly unique and out-of-the-ordinary sounds not typically found in mainstream music or soundsets.

The presets went through a highly selective selection process narrowed down from over 700 patches -- only the best made it in for final release. The soundset includes many gorgeous pads, flowing atmospheres, breathtaking soundscapes, contemporary bass sequences, catchy arps, exotic leads, hard hitting, punchy basses, plucks, synth choirs, vibrato strings, epic cinematic drums fx, and keys.

Potential Genres: Progressive Trance, Cinematic, Psy/Goa, Future Bass, Deep House, Ambient, Chillout, Psybient, Uplifting, EDM.

Soundset Details:

Every patch within Zen Starfields has all four of its Macro's assigned, in addition to the Modulation Wheel. A tremendous amount of care and detail went into setting up the modulation assignments to greatly expand on the patches playability and depth of expression. Many of the Macro's craft the sound in such a way as to sound like an entirely different preset, so in effect the macros are morphing between patches in some situations. This is achieved with extensive modulation destinations to morph the oscillators wave tables and/or adjusting the FM amount between the oscillators. It was great fun designing and more importantly, they sound great.

Furthermore, all patches have been volume normalized, so drastic changes in volume don't occur when cycling through the presets.

Patch Breakdown:

128 presets for Spire & ReSpire synthesizers

- Arps - 15
- Leads - 21
- Pads and Atmospheric Soundscapes- 24
- Drums - 4

- Basses - 26
