

Zenus is a large and unique collection of percussion loops and samples that will help you quickly create perfect compositions in Ambient, Longue, Lo-Fi, and other styles.

Percussion sounds are always a challenging task for any electronic track. With Zenus, this challenge will be interrupted into a fun and inspiring game.

Almost immediately, by applying any percussion pattern to your track, you will get perfectly sounding rhythms with unique shades and moods.

Thanks to carefully synthesized percussion kicks, you get the same deep and soft penetrating sound that you hear in commercial compositions of famous authors.

Zenus makes your music amazing!

What's in the collection:
