

“Zulu Psytrance” is a unique sounding template for Ableton, FL Studio & Logic Pro created by the very talented producer Axel Walters. This guy devoted a lot of time to make this project sound so professional and at the same time was very readable and easy to learn.

Also, this project using a minimum number of external plugins and CPU power. Zulu Psytrance takes you to a land full of psychedelic sounds like Acid, Synth & Bass and incredibly rhythmic drums and vocals. The whole creates an amazing atmosphere.

This project will teach you everything you need now to create Psytrance music. Sound design techniques, Mixing, Mastering, sense of rhythm and atmosphere.
